TALENT AND MODEL AGENCY

Since I have had problems with my face from the age of 14 to 36 I have seen 9 or 10 Dermatologists and General Practitioners for my face...Had my face burned, frozen, all but sanded...I have never felt that a product has had any effect of clearing my face as whatever this product of Dr. Chernov's.

As I've gotten older I've had to bury myself under tons of make-up and felt like the original painted lady just to cover the inflammation and swollen pimples on my face.

I was very sceptical..Hopeful, and doubtful about what could relieve my face...So I continued to eat my normal diet and even went to extremes and had chocolate fudge sundaes, mexican food... none of these deterred this product from working.

I'm a Talent Agent who is under constant pressure daily- and stress doesn't even disturb this product from doing its thing! My associates in the office...men and women have commented on the improvement in one week!

My family noticed the 2nd or 3rd day! I'm never still as I take dancing lessons also...and nothing seems to stop this unbelievable stuff from working!

Thank you Dr. Chernov!
