Dear Mary,

Thanks for mailing my new bottle of Joshua Cold Sore medication so quickly. I've been using it now for over five years and couldn't do without it...it is a wonderful solution! I've told several friends about it but don't know if they have ordered any or not. Since I'm very susceptible to cold sores, especially after visits to my dentist, I apply it immediately upon the first tingling sensation and it stops the further progression of the eruptions.

Thanks again, and I look forward 

Sincerely,

LOIS J. KEARNS

Mary

Please feel free to use my letter. Hope it will encourage others to use this fine product, they will be very satisfied, as I have, with the results.
